Roller speargun with rubbers (The Hawk)

User & Maintenance Manual

CAUTION

Please before using the speargun you must read this instruction manual throughly, paying close attention to everything that concerns the security of yourself and people around you. Store it for further future reference.

INTRODUCTION

CONGRATULATIONS. You have just chosen the most technologically advanced and reliable speargun on the market. Extreme1 is the final result of years of studies and tests. Precision, maneuverability and reliability are the main features of the project.

CAUTION

Read the instructions in this manual carefully as they are essential for your safety and moreover to ensure the longevity of your speargun. Diving equipment should be used only by properly trained people. To guarantee the maximum safety, maintenance of your equipment should be provided only by an authorized Sea Hawk Sub center.

CAUTION

Please read this instruction manual before use, and keep it, paying close attention to everything that concerns the security.

CAUTION

Don't leave the speargun loaded and unattended neither on the ground nor on a boat, use it solely for spearfishing!

CAUTION

Never point loaded speargun, even momentarily, against yourself or other diver. Always turn the rod tip away from you and other people around. At the end of the hunting unload the speargun.

CAUTION

In Italy, in accordance with art. 18 of Law 963/65 the use of spearguns is permitted only to guests over 16 years. Inquire about the applicable laws for the use of the rifle by children in other countries.

PRECAUTIONS

Before using the gun, always check the following:

- Check the proper operation of the firing system,
 - Check the tightening of the screws.
 - Ensure that the knots are secure.
 - Check that bands are in good condition, in particular make sure that for cracks, damage, cracks and pulling away from the ends. In that case, do not hesitate to replace them.
- Do not leave the gun to direct sunlight or source of heat.
- After each use, rinse with plenty of fresh water gun.
